Experience (2019-2025)

2022 - 2025 *The Lab Group*

- Collaborated with designers and backend developers to build and maintain 4+ web applications, ensuring seamless integration and optimal performance.
- Developed interactive 3D visualizations using Three.js, increasing user engagement by 10%.
- Implemented responsive designs with modern SCSS, improving mobile user experience and reducing load times by 25%.
- Integrated RESTful APIs to enable real-time data updates, enhancing application functionality.

2020 - 2022 *Fiverr*

- Delivered 35+ custom web development projects for clients across diverse industries, achieving a 4.9/5 client rating.
- Built and deployed responsive web applications using React, Vue.js and JavaScript, ensuring cross-browser compatibility and accessibility.
- Optimized front-end code to improve page load speeds by 25%, resulting in higher user retention.
- Worked closely with clients to translate design mockups into functional websites using HTML, CSS, and JavaScript frameworks.

2019 *MISC (Small Businesses & Startups)*

- Developed and maintained 5+ websites for small businesses, focusing on user-friendly interfaces and responsive design.
- Assisted in debugging and resolving front-end issues, reducing bug reports by 40%.
- Collaborated with senior developers to learn best practices in version control (Git) and code optimization.

Technical Skills

- **Languages & Frameworks:** JavaScript (ES6+), React js, Vue.js, Three.js, HTML5, CSS3, Tailwind, SCSS, GSAP
- **Tools & Platforms:** Git, GitHub, Figma, Webpack, Vite, Node.js, Firebase
- **Other:** RESTful APIs, Responsive Design, Cross-Browser Compatibility, Cloud Services (AWS Basics), Agile Methodologies
- **Soft Skills:** Problem Solving, Creative Thinking, Team Collaboration, Time Management
